## PROGRAM & PROJECT MANAGEMENT

ACMA works with agencies to manage a collection or coordinate individual to achieve efficiencies of scale. We streamline processes and improve procedures to meet the customers' demand on requirements. ACMA's success across 30 countries and 4 continents, in the areas supporting disaster relief victims and others in remote rural locations. Our accomplishments are in the areas of change management, knowledge management, communication and outreach, strategic planning, performance management, that have warranted continued project and program management support across the federal government.

## TRAINING

ACMA deploys the latest in instructional systems design to create premium quality training materials, training modules, teaching aids and management of all aspects of curriculum development programs. We strive to provide quality assurance and evaluation services for in-house and virtual customer training programs, as well as assistance in the creation of certification and career development programs for the workforce personnel.

## ACQUISITION SUPPORT

ACMA provides professional full acquisition life-cycle management consulting support to enhance and supplement federal, state and local agencies in the administration and management of their acquisition management activities. Our team will support acquisition pre-award activities, post-award activities, and contract closeouts.

## PAST PERFORMANCE

ACMA strives to align with the agencies strategic goals to not only meet the requirements but bringing innovative out of the box solutions to day-to-day activities by being ahead of the industry norms. As result, we have provided enterprise training solutions to the Commonwealth of Virginia, City of Newport News and City of Suffolk Virginia since 2021, having trained over 300 employees to date in IT Acquisition; Information Technology, Asset Management a framework that joins contractual, financial, and IT governance.
